PROFILE

Enthusiastic Data Scientist eager to contribute to team success through hard work attention to detail and excellent organizational skills. Experience of Machine Learning and Data handling using python and SQL. Motivated to work, learn, grow and excel in organization.

EXPERIENCE

Intensive Data Science Bootcamp

Spiced Academy

📅 Jan 2021 – April 2021

- 480 hours of Intensive Data Science Bootcamp Training.
- Supervised and unsupervised machine learning.
- Operating with data in SQL and NoSQL databases and building Dashboards.
- Using python to collect, analyze data as well as data visualization focusing on the powerful scientific package libraries.
- Deploying code on cloud servers using docker and AWS

Projects

📅 Jan 2021 – April 2021

- Classification (Titanic Dataset): Python, Pandas, Numpy, Matplotlib, Seaborn, Scikit-learn and Stats-model.
- Dashboard: PostgreSQL, AWS RDS and EC2, Metabase.
- Data Pipeline: Docker, Tweepy API and Slack bot , MongoDB , PostgreSQL, ETL Jobs Airflow.
- Classification of Cloths in Fashion-MNIST Dataset using Neural Network: Tensorflow-Keras
- Recommender System: NMF-Model, Web development using Flask, CI/CD.
- Android Apps Classification: Web Scrapping, Docker, ETL Jobs Airflow, NLP, Text-Classification with Transformers.

Design Engineer

Neeraj Engineering

📅 September 2015 – November 2017

- Supported engineering design development through analysis and simulation of prototype and 3D computer Models.
- Involved in the tasks of planning execution and guidance of employees in area of Mechanical Design Development

LIFE PHILOSOPHY

"Fight until its not the end that you had imagined."

SKILLS

Programming Languages
Python

Databases
SQL, MongoDB, CouchDB

AI
Machine Learning, Deep Learning, Tensorflow, Scikit-learn

Docker
docker-compose

AWS Services

Dashboard
Metabase

3D Modelling
Autocad, CATIA V5

SOFT SKILLS

- Communication
- Problem Solving
- Teamwork/Collaboration
- Networking
- Proactive
